

MultiPrint

The MultiPrint series is a modern, all-round ink series for a broad spectrum of applications. It is suitable for both straight and perfecting jobs. Thanks to its universal properties, the MultiPrint series is furthermore an ideal choice for large company groups with different production locations and a variety of different printing presses. By enabling the use of just one ink type, it establishes essential prerequisites for constant print results.

Benefits:

- Excellent printability (ink/water balance, rolling properties)
- High intensity
- High gloss
- Very good rub resistance

The medium speed of setting ensures unproblematic printing on practically all absorbent paper grades.

Important:

As a modern ink series, MultiPrint inks comply with all requirements of the ISO 2846-1 standard. Their intensity and dot sharpness enable the printer to satisfy all process demands of the ISO 12647-2 standard and at the same time to achieve a very neutral grey balance.

Properties:

Fast work and turn	4	5 = excellent
Fast finishing	4	4 = very good
Rub resistance	4	3 = good
Gloss	4	2 = satisfactory
Setting	medium	1 = sufficient
Suitable for perfecting	yes	
IR drying recommended	yes	
Duct fresh	yes	

	Article number	Light-fast	Transp.	Spirit	Nitro	Alkali	
MultiPrint Yellow	P8331260	5	+	+	+	+	+ Property applicable
MultiPrint Magenta	P8331250	5	+	+	+	-	- Property not applicable
MultiPrint Cyan	P8331240	8	+	+	+	+	
MultiPrint Black	P8331220	8	-	+	+	+	

This technical description is provided as information and general advice. Its contents represent our current knowledge. As specific applications are dependent on a diversity of factors beyond our control, however, we are unable to guarantee the success of printing in any particular case.
